

WORKPLACE LEARNING LOGBOOK

OCC: SOFTWARE ENGINEER
SAQA ID 119458
251201-001-00-WM-04

Private
Tertiary
Education

TABLE OF CONTENTS

Contents

1. STUDENT INFORMATION	3
2. HOST COMPANY INFORMATION.....	3
3. WORK EXPERIENCE MODULE INFORMATION	3
3.1 Work Experience Module Duration	4
3.2 Purpose of the Work Experience Module	4
3.3 Workplace learning objectives	4
3.4 Guidelines for Work Experience - 251201-002-00-WM-04.....	4
3.5 Additional Assignments to be Assessed Externally.....	4
4 DAILY LOG	4
5. REFLECTION FORM	7
6. FINAL EVALUATION	7
7. STUDENT DECLARATION	8

1. STUDENT INFORMATION

Full Name	Jaydee Venter
Student ID/Passport	0408055092089
Student number	20240064
Campus	Boksburg
Placement Period	From 10-06-2026 to 14-07-2026

2. HOST COMPANY INFORMATION

Company name	Galaxy Technologies
Company address	Nova house, 3rd floor, 58 Grayston Drive Sandton
Supervisor name	Ashelly Mangena
Supervisor contact	+27 78 550 6354
Department	Software Testing

Company Stamp

3. WORK EXPERIENCE MODULE INFORMATION

WM Description	Software Testing
WM Code	251201-001-00-WM-04
WM Credits	15
WM NQF	5

3.1 Work Experience Module Duration

Total Hours
150

3.2 Purpose of the Work Experience Module

The focus of the work experience is on providing the learner an opportunity to: gain exposure to write software code; test and debug source code.

3.3 Workplace learning objectives

1. Execute functional and non-functional test at least twice, within six to nine months

3.4 Guidelines for Work Experience - 251201-002-00-WM-04

WM-04-WE01: Execute functional and non-functional test at least twice, within six to nine months

Scope of Work Experience

The person will be expected to engage in the following work activities:

- Plan for testing
- Write test cases
- Engage in testing

Supporting Evidence

- Attendance register
- Software test report

3.5 Additional Assignments to be Assessed Externally

None

4 DAILY LOG

NOTE: Students are required to fill in the daily logbook. The logbook needs to be completed with as much detail possible, to ensure all objectives are met.

Table 4.1 Daily Log (Students to complete this section daily)

Date	Tasks Completed	Skills Applied	Hours worked	Supervisor Signature
10/10/2026	Phase 1: Environment Setup. Downloaded source code and reviewed code.	Configuration of environment	6 hours	
11/10/2026	Did research on IEEE 829 standard Test Plan	Research and application	2 hours	
11/10/2026	Compiled test plan document	Planning	8 hours	
12/10/2026	Reviewed test plan and compiled risk register.	Risk Assessment	4 hours.	
15/10/2026	Phase 2 started. Drafting of test cases excel containing EP BVA for management	Test case design EP and BVA state transition	8 hours.	
16/10/2026	Test cases for Transaction Engine + Decision table	Test case design EP + BVA -1 Decision table	8 hours	

Date	Tasks Completed	Skills Applied	Hours worked	Supervisor Signature
17 10/06/2026	Test cases for Interest calculator and Loan Processing modules	EP and BVA Test case design State transition	4 hours	
17 06/2026	Test cases for Reporting engine + Authentication module and Validation	Test case design EP + BVA	4 hours.	
18 10/06/2026	Non functional test case design for BEMS (performance + Security + Robustness)	Test case design Non-functional - test cases	4 hours	
19 10/06/2026	Researched RTM and why it is used in professional testing	Research RTM design	3 hours	
20 10/06/2026	Designed RTM document and linked it to my testcases.	Requirement Tracedability Matrix design.	4 hours.	
22 10/06/2026	Phase 3: started Automated test design for Accountmanagement Authorization and Validation lib.	MSTest Framework vs studio tools. Mocking	10 hours	

Date	Tasks Completed	Skills Applied	Hours worked	Supervisor Signature
23 10/6/2026	Design automated testing for NUnit framework on Transaction Engine and Reporting Engine	NUnit framework vs studio tools. Mocking	10 hours	
24 10/6/2026	Design of automated tests for Interest calculator and Loan Processing	xUnit framework vs studio tools Mocking	10 hours.	
25 10/6/2026	Researched PMT formula in amortization schedule	Research	4 hours.	
26 10/6/2026	Generated code coverage + added more code to meet requirements	Code coverage Analysis + updating of code	8 hours	
27 10/6/2026	Researched the difference between mock, stub + fake and spy	research	3 hours	
01 10/7/2026	Phase 4: Manual and automated test run	Test preparation Test execution	6 hours	

Date	Tasks Completed	Skills Applied	Hours worked	Supervisor Signature
02 10/1/2026	Executed the tests Started phase 4 document, Ran non functional tests and documented continued with phase 4 document. Updated documents from phase 2	Test execution Test documentation Test preparation	6 hours	
03 10/1/2026		Test execution Test documentation	2 hours	
04 10/1/2026	Created test execution summary table Ran all 251 tests Identified 31 failed Logged the defects	Test Execution Test documentation Defect logging	2 hours	
06 10/1/2026	Documented defects and root causes simulated code fixes Ran run 2 after simulated fixes	Test Execution Test documentation Defect logging Root cause analysis	6 hours	
07 10/1/2026	Continued compiling phase 4 document, continued with defect log table Researched severity vs priority	Test Execution Test documentation Defect logging Research	4 hours	
08 10/1/2026	Executed run 3 after simulated fixes to confirm no regression. Completed phase 4 document	Test Execution Test documentation Regression testing	4 hours	

Date	Tasks Completed	Skills Applied	Hours worked	Supervisor Signature
09/07/2026	Phase 5: Created formal software test report (IEEE 829 standard) updated risk register	Test Reporting Research	4 hours	
10/07/2026	continued with software test report	Test reporting	4 hours	
11/07/2026	Completed software test report + started evidence collection	Test reporting portfolio creation	6 hours	
13/07/2026	Started reflection journal and finished + evidence collection	portfolio creation Reflection on project	3 hours	
14/07/2026	Finalized all documents + evidence collection. Reviews of project.	Portfolio creation Project reflection	3 hours.	
/ /				

5. REFLECTION FORM

(Students to complete this section at the end of the Work Experience Module placement)

- Key lessons learned:

The importance of software testing (manual and automated) along with the proper documentation there of.

- New skills developed:

Knowledge of automated testing on production applications. Better understanding of severity vs priority of bugs.

- Challenges and how they were overcome:

Developing test framework suites from scratch. Hours of research and trial and error runs.

- Feedback from supervisor:

6. FINAL EVALUATION

(To be completed by the workplace Supervisor)

1. Student's Overall Performance:

☐ Excellent

☐ Good

☐ Satisfactory

☐ Needs Improvement

2. Strengths Observed:

3. Areas for Improvement:

4. Comments:

Supervisor Name: _____

Signature: _____

Date: ____/____/____

7. STUDENT DECLARATION

I, Jaydee Venter confirm that the information recorded in this logbook is accurate and reflects my learning experience.

Student Signature: [Signature]

Date: 14 / 07 / 2026

CTU Representative

Name and surname: _____

Signature: _____ Date: _____

NB

All logbooks must be completed and signed by both the student and the workplace supervisor. Failure to submit a completed logbook may result in delays in the certification process. Ensure all records are accurate and submitted by the required
